

Selection Questionnaire 2016

Introduction

Welcome to the standard Selection Questionnaire.

To apply for a public sector contract opportunity (as defined by the Public Contracts Regulations 2015), organisations must complete a standard Selection Questionnaire.

The Selection Questionnaire enables you to make a self-declaration, on behalf of your organisation, in the following areas:

- Part 1 - your organisation and proposed bidding model
- Part 2 - grounds for exclusion from procurement procedures
- Part 3 - financial standing and technical capacity

When you have completed this Selection Questionnaire, it can be shared with the relevant contracting authority to apply for a contract opportunity.

► Download the Selection Questionnaire questions

You can download and review the Selection Questionnaire before completing. Until you choose to submit the Selection Questionnaire, you can edit your answers at any time.

[Download the Selection Questionnaire](#)

► Creating a Selection Questionnaire template

You can create a template Selection Questionnaire, to edit and share with contracting authorities at a later date. When creating a template, you should save and exit the Selection Questionnaire instead of choosing to submit your answers.

► About the Supplier Registration Service

The Supplier Registration Service is the government platform for suppliers to register and complete standard Selection Questionnaires. Your account on the Supplier Registration Service is linked to [Contracts Finder](#), where you can search for public sector contract opportunities.

Do you want to re-use answers from an existing Selection Questionnaire?

[Yes, I want to re-use an existing Selection Questionnaire](#)

Please check that you have reviewed and wish to submit the information detailed within 'Part 1: Section 1 - Potential Supplier Information', 'Part 1: Section 1 - Bidding Model', 'Part 2: Section 2 - Grounds for mandatory exclusion' 'Part 2: Section 3 - Grounds for discretionary exclusion'.

SQ Evidence Request

Welcome to the Supplier Evidence Request stage of the standard Selection Questionnaire (SQ)

This stage of the SQ enables contracting authorities to request evidence from the winning bidder(s) of a specific procurement.

This evidence should only be required from the winning bidder(s), in support of their self-assessment of compliance with exclusion and selection criteria, which has been submitted using the SQ.

The Supplier Evidence stage enables buyers to request the relevant documents for review as evidence, which the supplier(s) can then share via the Supplier Registration Service.

Requesting evidence in this way ensures the proper conduct of the procurement but reduces the need for every potential supplier to submit supporting documents every time they wish to bid for a public contract.

SQ Evidence Request

164. You have evaluated the supplier's SQ for your tender requirement and would like them to provide the necessary evidence to confirm the self declarations made in their SQ.

Please select the documents that you would like to review as evidence from the list below. This list has been created based on the information the Supplier confirmed that they could provide upon request.

This list will be issued to the Supplier (via notification email) and they will be asked to share the relevant documents with you via the Service.

Contract Example

Contract Example Response Guidance

You must demonstrate you have the necessary technical and professional experience to support customers to successfully improve through the deployment of new and/or emerging technologies for both or one of either Radical and Disruptive innovations.

Can you please provide one (1) contract example where your organisation can demonstrate the following key requirements:

- The Novelty
- The Delivery

A new approach to a problem or product/intellectual property development that fits within our above described definitions of innovation (radical or disruptive).

Tangible usefulness for the customer which could also be applied to other customers (the contract need not necessarily be with a public sector customer but you will need to demonstrate that you understand the potential future usefulness to the public sector).

► The Impact

Positive impacts of the innovation for the customer including all of the following areas: efficiency, effectiveness, better outcomes and increased satisfaction. In some circumstances there may be negative impacts within this, in which case the bidder should demonstrate how subsequent deployments could be improved.

► The Control

How the customer was given the appropriate rights to any relevant pre-existing intellectual property, either through ownership or licencing and how they have been protected from future exploitation (and these need to be explained).

Where the contract involved specially written intellectual property, you should explain how the customer was given control over this and how it can be reused within the public sector at no or minimal cost.

Contract examples may include:

- A contract funded by a government catalyst or similar that has been successful in developing a technology based product/service to meet a public sector need.
- A contract with a public sector body that was procured under an Innovation Partnership Procedure and has been successful in developing a technology based product/service to meet a public sector need.
- A proof of concept with a public sector customer for a novel technology based product or service to meet a public sector need.
- Any other contract, within the public or private sector, that involved the development of a novel technology based product and or service that could meet a public sector need.

Where the example is a private sector contract you will need to explain the potential use within the public sector.

In all of the above the suppliers will need to demonstrate how the example meet the four key requirements above (Novelty, Impact, Delivery, Control). i.e. was the problem centred, they developed a product, how the IPR is within their control.
